

# EXPERIENCING LIGHT 2014

NOVEMBER 10-11, EINDHOVEN, THE NETHERLANDS

INTERNATIONAL CONFERENCE ON THE EFFECTS OF LIGHT ON WELLBEING

## CALL FOR PAPERS

**EXPERIENCING LIGHT 2014** is an international two-day scientific conference that will bring together recent insights into the effects of light and lighting design on human wellbeing. Following the successful Experiencing Light conferences in 2009 and 2012 it aims to provide a state of the art overview of how light influences mood, emotions, behaviour, physical and mental health, comfort, atmosphere perception, productivity and performance. The conference provides an excellent opportunity for academics and practitioners with an interest in research, theory, technologies, design, and applications related to the effects of lighting on people to meet and hear about recent findings.

We hope to see you in Eindhoven on the 10<sup>th</sup> and 11<sup>th</sup> of November 2014! The proceedings of the previous two Experiencing Light conferences can be found on the website <http://www.experiencinglight.nl/>. Keep an eye on the website for updates about the program, deadlines for the submission of presentations and posters, and more!

## DOCTORAL CONSORTIUM

We are pleased to announce that in addition to our two-day scientific conference, we will also organize a doctoral consortium targeted at young researchers who study the effects of light and light design on human wellbeing. The aim of the doctoral consortium is to provide an opportunity for a limited amount of doctoral students to discuss their current and future research projects within an interdisciplinary panel of doctoral students, under the guidance of distinguished researchers. The doctoral consortium will be held prior to the Experiencing Light 2014 conference, on **November 9th 2014**. The admission fee is €30,- for students who also register for the Experiencing Light 2014 conference. We cordially invite doctoral students who feel they would benefit from this kind of feedback on their dissertation work to apply for this opportunity to share their work with senior researchers and fellow students in the field of light and lighting design. Further information on the application procedure as well as more details on the contents of the doctoral consortium will be announced in the near future.

## **GLOW FESTIVAL**

The conference coincides with the Glow festival (<http://www.gloweindhoven.nl/>) during which Eindhoven turns into a true city of light. By a forum of interventions, installations, performances and events you can experience the diverse facets of the phenomena of light.

## **EXPERIENCING LIGHT 2014 ABSTRACT SUBMISSION**

The submission format consists of extended abstracts of maximum 4 pages (approximately 2500 words) in MS Word format. For specific submission guidelines and templates, please visit the conference website: [www.experiencinglight.nl](http://www.experiencinglight.nl), or contact us at [el2014@tue.nl](mailto:el2014@tue.nl).

Important dates:

Submission deadline: 16 May 2014

Notification of acceptance: 27 June 2014

Revised submission deadline: 13 August 2014 (for accepted abstracts only)

**On behalf of the organizing committee, we hope to see you at Experiencing Light 2014!**
